DETAILS

This new Roman Catholic accredited elementary school features 14 classrooms for pre-K through eighth grade, music choir room, dining hall, gymnasium, two-story open commons area with library and media center, and chapel with sloped auditorium seating.

With an estimated current enrollment of 215 students, the school was designed and built for future expansion. A projected second phase addition will create space for up to 500 students in total.

Completed during an 11-month construction schedule, Stahl partnered with the project committee and subcontractors to make sure the project progressed and was completed on time despite the unexpected early autumn freeze and harsh winter conditions.

This project was a finalist for the *Minnesota Construction Association* **PROJECT ACHIEVEMENT AWARD**.
